Selectmen's Report 1988

PEOPLE:

Curt Nowill attended Assessing School as presented by the Department of Revenue Administration in June. This one week course gives instruction in the assessing methods presently used as a result of our 1980 revaluation.

Steve, Liz and Neil Jenness traveled to Concord for 4 Mondays evenings attending a Zoning Law Series becoming increasingly knowledgeable in Planning and Zoning issues.

The Law Lecture Series held at Keene State College was well attended by members of our Planning Board and Zoning Board members.

A successful employees picnic (2nd) was held the Sat. after Labor Day at Ware's Grove. This is done in appreciation for all done by the town employees, board and commission members and their families. Many hours of time and energies are donated to Chesterfield to make us the kind of community that we are.

PLACES:

The Coyote Canyon bridge received a major uplift this year and plans are being finalized for the reconstruction of both the Westmoreland and Farr Rd bridges for 1989.

THINGS:

The Board made the decision to go to semi-annual tax billing - This will be a financial change which should eliminate the need to borrow money in anticipation of taxes and earn more interest, thus benefiting the tax payer due to the additional revenues earned.

Central office purchasing will be initiated in 1989 for expendable items.

We are presently assessing at 40% of current market value (from the State of NH) and you will see a request to use the funds put aside plus an additional amount for a revaluation for 1989.

Our insurance needs have been presented for proposals with the hope to provide the best coverages possible keeping the tax dollar in mind.

1989 CONCERNS: Building and space needs will be investigated.

Chesterfield Selectmen

TOWN MEETING 1988

Proceedings of the Annual Meeting of the voters of the Town of Chesterfield, New Hampshire, called at the Town Hall in said Town on Tuesday, March 8, 1988.

At 10 o'clock in the forenoon, the meeting was called to order by the Moderator, Carl A. Johnson, who read the warrant through Articles One and Two and declared the polls opened for voting for Town Officers and amendments to the Zoning Ordinances.

The 221st town meeting was called to order by the Moderator with Warren Allen and Ethel Mills as assisant moderator and assistant clerk, respectively.

Local officials and town representatives to the General Court were introduced by the Moderator.

The Moderator called for a moment of silence for those who had passed away during the year, followed by the invocation, given by Rev. James Sawtelle of the Asbury United Methodist Church.

The rules under which the meeting would be run were explained by the Moderator. All amendments should be in writing with one amendment at a time, all speakers shall identify themselves and remarks should be addressed to the Chair. Also, any request for a reconsideration of an article would be considered after the Chair had determined that not more than one-third of the group had left the meeting.

A voice vote was in the affirmative on a motion made by Gerald Scanlan and seconded by John Leahy to dispense with the reading of the warrant and the Moderator would read each article as it was considered.

REPORT OF THE DEPARTMENT OF PUBLIC WORKS

In 1988, we added a heavy-duty 1 ton dump truck to our fleet which will add a good deal to our efficency, especially during the winter months. It is equipped with a 2-3 yard hydraulic sander and a 6 way snowplow, and both seem to be working out quite well.

Construction/Reconstruction projects consisted of the lessening of a potentially hazardous curve on the Edgar Rd. and the lessening of humps on Castle and Gulf Roads that caused limited sight distance on narrow sections of road.

Roads that are planned to be paved or repaved in 1989 are Westmoreland Road to the Town line, Glebe Road from Route 9 to the Town line, Forest Ave., the repaired section of Edgar Road, Maple Road from Route 9A to Old Chesterfield Road, the gravel portion of Prospect Hill Road, South Shore Road, Old Chesterfield Road from Maple Road to Route 63 and the paved section of Jackson Hill Road. As part of preparing these roads for surfacing, we plan to shim the low areas and shoulders as needed.

For the year 1988 there were 62 driveway permits issued.

There will be an answering machine in operation for the Highway Garage and Public Works Director's Office number 363-8004, for the times when no one is there to receive your messages or concerns. The messages received will be checked on a regular basis so as to provide the public with a quicker response to their calls when possible.

I am working on a complete thorough inventory of all our roads and their conditions and work from this, taking into consideration the severity of condition and volume of traffic involved, to form priorities on making them all as safe and in as good condition as time and budget will allow.

I have been working with the Cemetery Commission, Recycling Committee and the Planning Board to do my part to keep the Cemeteries in good condition, to keep on top of solidwaste problems and solutions, and to make sure our new roads to be are up to respectable standards.

My first year as Director of Public Works for the Chesterfield area has been a challenge as I had anticipated. It has also been a valuable learning experience, and I intend to apply the knowledge I have gained to do the best job for the Town that I possibly can. My thanks to the Highway Crew, Town employees and those who have shown their support.

Director of Public Works

REPORT OF THE CHESTERFIELD POLICE DEPARTMENT

1988

To the Townspeople of Chesterfield:

The following report is a brief overview of the Police Department's activity in 1988 and its plans for 1989. I have also included comparative statistics to show trends of the past few years.

I am sure that it will come to no ones surprise when I say that we are living in a rapidly growing community. The challenge to the Police Department, as with all the Town Departments, is to maintain the expected levels of service to the Town, in the face of steadily increasing calls for those services.

1988 saw the Police Department handling several large and complex cases. A great deal of these were drug related and in conjunciton with most of our surrounding sister agencies. This spirit of cooperation is probably the single most effective tool that we have at our disposal. Planning and Training have become priority items for us so that we can keep pace with the growth in Cheshire County. As a part of this, we hope to become much more involved in the Chesterfield School with the younger childern in order to make them aware of the dangers of drugs.

It is my desire to continue to find ways to streamline our operation in order to be as responsive and professional as possible. I plan to continue working with the other Emergency Services Chiefs to find ways to insure public safety and protection. We will be placing a second officer out on weekends with the intent to be more visible around the Lake and Boat Landing areas. Parking and speed control will be the primary areas of concern.

As you know, we cannot be everywhere at once so I encourage anyone seeing what appears to be suspicious activity to call us. It really is better to be safe than sorry. I also encourage anyone wishing to discuss a Police matter to call me at either 352-1100 or 363-4233.

Respectfully submitted,

Eric S. Sargent
Chief of Police

PARKS AND RECREATION COMMISSION REPORT - 1988

The Parks and Recreation Commission whose charge is to oversee town recreation programs and the operation of the two town beaches, met 14 times in 1988.

Wendy Chamberlin, our Recreation Director, continues to supervise our recreation program serving the Commission and Town with initiative, thoroughness and dedication. We are most grateful for the help of her husband, Mike, as well.

The new Chesterfield School gym has enabled us to offer added recreational opportunities this year. Wendy and Mike have initiated a men's basketball program on Tuesday nights (7-9pm) and co-ed adult volleyball on Thursday nights (7-9pm). Townspeople are welcome at these at any time. Working with school principal Larry Seavey, Wendy is also running an eight week Saturday morning basketball and new games program for boys and girls in grades 3-6. Volunteers Peter Lepple, Gordon Fuller and Terry Wiggin have helped out with this program.

Our Director oversees the eight week Tuesday and Thursday Summer Rec Program at Ware's Grove from late June to mid August, offering land and water games, arts and crafts, special parties, and field trips to town children ages 6 and up. Supervisors for 1988 were Wendi Allen and Darci Decormier. In addition, 90 local children received free swim lessons at Ware's Grove Beach. Outdoor volleyball for older teens and adults was offered on Tuesday and Thursday evenings. Family movies were shown on the Ware's Grove Beach on Thursday nights, but will be eliminated next summer because of low attendance. Bernie Novak, operator of Park Concessions, ran the beach concessions.

We continue to support two volunteer-run sports program for town youth, grades K-5, at the school fields: Chesterfield Youth Baseball in the spring and Chesterfield Pee Wee Soccer in the fall. The baseball program, co-ordinated by Phil Palmer and Rainy Kornfield, had 109 participants, 18 volunteer coaches and 7 local business sponsers. The soccer program, organized by Harriet and Claus Knappe had 130 participants, 10 coaches and 16 helpers. Susan and Phil Shaw have agreed to co-ordinate this program next fall.

We gave our blessing to two other special recreational events at Lake Spofford last summer: The Brattleboro Outing Club's July 20 Triathalon and the Old Home Day Jazz Concert onthe Ware's Grove Beach on Aug. 28.

For the convenience of town residents, we rent portable toilets for the South Shore boat landing and for the school ballfield from May through August.

Our application to the Department of Resources and Economic Development for matching funds to build a new rest room - ticket - concession building at Ware's Grove was turned down for a second time this fall. However, in a year's time we hope to have enough in our building capital reserve fund to do the project on our own.

In February, 1989, the Commission voted to eliminate the North Shore Beach entrance fee for Chesterfield taxpayers (property or resident tax). It is our hope that more townspeoples will be able to enjoy this delightful spot. However, to meet certain other State requirements we are also recommending raising the Ware's Grove Beach entrance fee for town residents from 50¢ to 75¢. Children will still be free.

Commission meetings are posted and are open to the public.

Respectfully submitted,

Judith Palmer

Secretary

CHESTERFIELD PLANNING BOARD

1988 was an increasingly busy year for the Board. The following applications were approved after hearings and review:

Boundary Line Adjustments	4		
Sub-Divisions	18	totaling	109 lots
Multi Family Developments	1	totaling	44 units
Commercial/Industrial Site Plans	5		

Several other applications are under review or in some stage of conditional approval.

In addition to processing applications, the Board continued to work on amended Land Development Regulations to replace the current Sud-Division and Site Plan rules. The Planning Board held hearings on several proposed zone changes, none of which were recommended for approval in 1988.

We continue to meet at least twice a month, our regular meeting being on the first Monday.

Phillip Goulet and Susan Lawson-Kelleher were named members in 1988 replacing Leo Berman and Richard Paul who resigned. Lyle Hoag also participated as an alternate member.

My personal thanks for a job well done goes to Rita DeVittori who served the Board as Secretary for many years.

Roger Monsell
Chairman

CEMETERY COMMISSION REPORT FOR 1988

The Town cemeteries were well maintained during the 1988 season despite continual equipment problems and high turnover of crew members supplied by our Department of Public Works.

The Commission has just purchased three new heavy duty John Deere push type mowers plus a small Agway riding mower for the large open areas in Friedsam and Spofford cemeteries and for grounds-keeping of the Town properties at Chesterfield Center. These items plus two new Lawn Boy string trimmers should take care of our equipment problems for the present. We are also currently having our old, beat-up mowers repaired where economically feasible.

The Commission has also fought for better starting pay for crew members and for a schedule of regular performance reviews and pay increases; this may help to cut down employee turnover. We urge any dependable, able-bodied person interested in this part time work to apply at the Town Offices in March for the 1989 season (April through October): working hours Monday through Thursday, 7:30 am to 3:30 pm plus "on call" for weekend burials; starting pay $5.50 per hour with review in 30 days for possible increase to $5.75-6.00 per hour.

We had six burials in 1988: two at Friedsam Cemetery and four at Spofford Cemetery. The price of an individual lot remains the same, at $150.00.

The Commission expects to resume our program of gravestone resetting and repair in all cemeteries, which was last carried out by our 1985 crew. We also expect to do badly needed brush cutting and repairs in our Latham-Beal Cemetery in the Hardscrabble area; this was last done in 1985.

Our 1988 budget appropriation was for $16,959.00. The Commission spent $15,118.27 in 1988 (see detail below). Our 1989 budget request in for $16,300.00.

REPORT OF THE EMERGENCY MANAGEMENT DIRECTOR

1988

APPOINTMENTS

In order to provide for better communication and interaction among the emergency services in town, a number of advisory staff positions were created this year to act as liason officers. They are as follows:

James VanOudenhove	Police Department
Stephen Bevis	West Chesterfield Fire Dept.
Michael Chamberlin	Spofford Fire Dept.
Steven Chickering	W.C.F.D. & Equipment Resources
Michael Plante	Chesterfield Fire Dept. & Highway Dept.

ACTIVITY

The Office of Emergency Management was directly involved in three incidents involving oil spills this year, supporting cleanup activities of the fire departments. Two spills occurred in Spofford, while the third was in West Chesterfield. Additionally, both Dean Ericson, Deputy Director, and myself completed a course in basic emergency management through the Federal Emergency Management Institute. Work is continuing on development of an updated emergency plan for use in dealing with specific major hazards.

FEDERAL AND STATE FUNDING

It is important to note that 50% of the total emergency management budget for Chesterfield is funded through the Federal Emergency Management Agency (FEMA), which means that the actual impact on the Town is one-half of the amount listed. Additional funds available through the State may offset this remaining amount partially or in total.

WEATHER ALERT RADIOS

All Chesterfield residents living within the ten (10) mile emergency planning zone should have a weather alert radio in their home. These radios are used to issue a warning in the event of an emergency at the Vermont Yankee Nuclear Power Station in Vernon, Vt. If you do not have one of these radios, or have one which is malfunctioning, please contact the Selectmen's Office for assistance. Any resident moving out of Town should leave this radio in the house for use by the next occupant.

SPECIAL NEEDS

We encourage anyone who feels that they may need help in evacuating their premises during any type of disaster to contact the Selectmen's Office and fill out a card indicating this. All information of this nature will be considered confidential.

ACCOLADES
I would like to give special thanks to the Selectmen, Administrative Assistant Joan Dittrich, Deputy Director Dean Ericson, the OEM staff, David Deans of the NH Office of Emergency Management, and the emergency services of Chesterfield for their strong support and dedication to serving and protecting the citizens of this town.

Jeffrey W. Titus
Emergency Management Director

ANNUAL REPORT - PUBLIC HEALTH

In 1988 we became more aware of potential dangers to the environment and public health. Calls about such topics as radon, asbestos, and household hazardous waste increased. Town public health was involved with over 30 septic tank and system installations. I could see a growing awareness that Chesterfield can remain healthy only when every person in it takes a part in the safe-guarding of public health and the environment. My thanks to the many people and organizations who helped in this effort.

The success of last spring's Public Health and Groundwater Survey has also been a big help. By midyear it was already proving a valuable aid in many aspects of public health as wells and other water sources were stressed by a long, hot summer. Spofford Lake was monitored both by the State and by Jackie Howard, our local Lakes Lay Monitor. Results of these tests will be available later in 1989. State Public Health has also requested that I monitor incidences of Swimmers' Itch this year, so please call me if this problem occurs. It is also not too early to start gathering materials for the next Household Hazardous Waste Collection Day.

CHESTERFIELD CONSERVATION COMMITTEE

1988 ANNUAL REPORT

The Commission's major focus, in 1988, was the Town's Friedsam property. This 200 acre mixed forest has essentially been undeveloped since it was donated to the Town for conservation purposes by Mrs. Friedsam. (Federal funds were also utilized to complete Town possession.)

The Commission has worked diligently to develop a conservation program that will:

- Allow the property to serve as a quiet retreat from today's hectic lifestyle.
- Provide educational opportunities in nature study and forest management for our Town's school children and interested citizens.
- Allow the property to become a self-sustaining Town forest through a carefully designed and time phased forest management program.
- Preserve the natural beauty and improve the wildlife habitat of the property.

A public informational meeting will be scheduled this spring to outline the program to interested citizens.

The Commission also worked with the Water Resource Protection Plan Committee to ensure the longterm conservation of our Town's natural water resources.

Finally, the Commission is beginning to look at a conservation program that will help preserve the Connecticut River waterfront in West Chesterfield. Concern over clear-cutting and river bank erosion will be a prime agenda item in 1989.

REPORT OF CHESTERFIELD RECYCLING COMMITTEE

At the March, 1988, Town Meeting, the citizens of Chesterfield voted to have mandatory recycling (Article 36), and to have the Selectmen appoint a recycling committee to develop a plan to carry out this mandate (Article 37). Our committee started meeting in mid-summer, and by late fall had prepared a proposal for the Selectmen. Capital expenditures related to that proposal will be considered as part of this year's town budget.

Our early meetings focused primarily on educating ourselves about recycling. We also visited the Wilton Recycling Center, an excellent example of a locally controlled operation. It became clear to us that several principles were crucial when considering the recycling option:

The largest cost-saving from recycling is the reduced cost to the town as separation reduces the waste that must be taken elsewhere for landfilling or incineration. This becomes even more inportant as the "tipping fee" in Keene increases this July from $5.50 per yard to $12.00 per yard. Every cubic yard not taken to Keene saves the Town of Chesterfield $12.00! Another way to look at this is that any legitimate option which gets rid of a yard of "waste" for less than $12.00 is a gain to the town. Even if we received no money for recycled newspapers we would be gaining $12.00 for each yard we recycled!

The incentive structure is very important to a successful plan. In particular the monetary gains from both the reduced volume to a landfill, and the sale of recycled material, should go toward decreasing the waste disposal costs of the town. If these gains are added to those related to a cleaner environment in town and elsewhere, the plan will have an excellent chance of gaining wide acceptance and cooperation in town.

It is very important that a good plan be set up from the start. Since processing on-site greatly increases the value per yard of material hauled to market, and since the ability to accumulate processed material on-site greatly reduces haulage per yard taken to market, it is crucial to the plan that proper processing equipment and building(s) be in place from the start.

These principles were kept in mind for the plan presented to the Selectmen, and they have retained them in the plan they are presenting to the town.

THE CHESTERFIELD WATER RESOURCE PROTECTION PLAN COMMITTEE 1988 ANNUAL REPORT

In March of 1988, the Townspeople authorized the formation of a town water resource protection plan committee. The committee's mission is to propose, to the Town, a water resource protection plan designed to conserve Chesterfield's natural water resources. The committee reports to the Conservation Commission.

Throughout 1988, the committee met with representatives of the Southwestern Regional Planning Commission and several water resource protection specialists to familiarize themselves with sound water resource protection practices.

Initial research has resulted in the committee assigning priority to protection of our Town's limited aquifer potential. Aquifers are the most economical public water resource available, as naturally-filtered water does not require expensive pre-treatment, as commonly seen in public surface water systems. The Town's only major potential aquifer appears to be in the Hubbard Brook/Catsbane Basin, located in the southwestern corner of town.

The Water Resource Protection Committee is recommending that Southwest Regional Planning proceed with the development of a State-approved water resource protection plan that would be integrated into Chesterfield's Master Plan. Zoning and Planning Board regulations can then be developed to protect critical (and vulnerable) water resources.

The committee agenda in 1989 will be to proceed with the development of a State-approved water resource protection plan and to work with hydrogeological engineers to define more clearly the size and potential of our Town's aquifers (in 1990). Attention will also turn to protection of Chesterfield's surface waters; including town brooks, wetlands, ponds, Spofford Lake and the Connecticut River.

CHESTERFIELD LIBRARY REPORT 1988

We are pleased to report that the library usage and support has continued to grow during the past year. Many useful books were given to the library by patrons, and generous donations by the Chesterfield Lions Club and the Eagles Club of Brattleboro were given for large print books. All were gratefully accepted.

Plans for expansion are continuing. A survey conducted indicates positive support of increasing both space and services. Additional summer hours will make our open hours the same all year. Mon. 10-3, Tues. 3-8, Thurs. 10-8, and Sat. 10-12n.

HOME HEALTH CARE AND COMMUNITY SERVICES, INC.

REPORT TO THE TOWN OF CHESTERFIELD

JANUARY 1, 1988 - DECEMBER 31, 1988

ANNUAL REPORT

In 1988, Home Health Care and Community Services continued to provide home care and community services to the residents of Chesterfield. The following information represents a projection of Home Health Care and Community Services' activities in your community in 1988. The projection is based on actual services provided from January through September 1988 and an estimate of usage during October, November and December.

SERVICE REPORT

SERVICES OFFERED	SERVICES PROVIDED	SERVICES SUPPORTED PARTIALLY OR TOTALLY BY THE TOWN
Nursing	143 Visits	26 Visits
Child Health Nursing	1 Visit	1 Visit
Physical Therapy	36 Visits	0 Visits
Speech Pathology	0 Visits	0 Visits
Occupational Therapy	13 Visits	0 Visits
Homemaker	1,178 Hours	151 Hours
Home Health Aide	41 Visits	16 Visits
Medical Social Worker	3 Visits	0 Visits
Nutritionist	1 Visit	1 Visit
Meals-On-Wheels	371 Meals	371 Meals
Office Visits	3 Visits	3 Visits

Total Unduplicated Residents Served: 58

In addition to the above listed activities, regularly scheduled blood pressure clinics, child health clinics, telephone and consultations were made available to your residents throughout the year. Town funding, in part, supported these additional services.

FINANCIAL REPORT

The actual cost of all services provided in 1988 with all funding sources is projected to be $29,427.00.

These services have been supported to the greatest extent possible by Medicare, Medicaid, other insurances, grants and patient fees. Services that were not covered by other funding have been supported by your town. In 1988, town support is projected to be $3,941.00 for home care services and $500.00 for the Meals-On-Wheels Program.

We recommend an appropriation of $9,000.00 to continue home care services and $200.00 for the Meals-On-Wheels Program to continue services at the current level.

Thank you for your consideration.

ARTICLE 7. To see if the District will vote to authorize the Commissioners to borrow money in anticipation of taxes to pay current expenses. Motion was carried in the affirmative.

ARTICLE 8. To transact any other business that may legally come before said meeting.

James Milani reported on the findings of the Building Committee. It was stated that the findings were to maintain the District, review the boundaries, continue to provide the Town with rescue service and for the Commissioners to review the conduct of the Department. A copy of this report is to be included in the permanent records of the District.

Mr. Ronald T., R. T., Guyette was honored with a standing round of applause for his many years of dedication to the District as a firefighter, Department Chief and Commissioner.

Meeting was adjourned at 8:05 pm.

Respectfully submitted,

Catherine H. Schlichting
clerk/treasurer

ARTICLE 9. To see if the District will vote to authorize the Commissioners to borrow money in anticipation of taxes to pay current costs.

ARTICLE 10. To transact any other business that may legally come before said meeting.

COMPLIANCE STATEMENT

This school district receives federal financial assistance. In order to continue receiving such federal financial assistance, this school district will not discriminate in their educational programs, activities or employment practices on the basis of race, language, sex, age, or handicapping condition, under the provisions of Title IX of the 1972 Educational Amendments; Section 504 of the Rehabilitation Act of 1973.

Complaints regarding compliance with Title IX regulations should be submitted in writing to the Title IX liaison for School Administrative Unit 29, the Personnel Manager, 34 West Street, Keene, New Hampshire.

Complaints regarding compliance with Rehabilitation Act of 1973 - Section 504 should be submitted in writing to the Director of Special Education, 34 West Street, Keene, New Hampshire.

H. Charles Larracey
Superintendent of Schools

STATE OF NEW HAMPSHIRE

SCHOOL WARRANT

To the inhabitants of the school district in the Town of Chesterfield qualified to vote in District affairs:

You are hereby notified to meet at the Chesterfield Elementary School in said District on the 11 day of March, 1989, at 10:00 in the forenoon to bring in your votes for the election of school district officers. The polls will open not later than 10:00 a.m., nor close earlier than the termination time of the District Meeting (as a minimum, 10:00 a.m. - 7:00 p.m.).

ARTICLE 1. To choose all necessary school district officers:

A moderator for the ensuing year
A clerk for the ensuing year
A member of the school board for the ensuing three years
A treasurer for the ensuing year from July 1, 1989
An auditor for the ensuing year

STATE OF NEW HAMPSHIRE
SCHOOL WARRANT

To the inhabitants of the school district in the Town of Chesterfield qualified to vote in District affairs:

You are hereby notified to meet at the Chesterfield Elementary School in said District on the 11 day of March, 1989, at 6:00 p.m. to act upon the following articles:

ARTICLE 1. To hear the reports of agents, auditors, committees or officers chosen, and pass any vote relating thereto.

ARTICLE 2. To see if the District will vote to authorize the School Board to make application for, and to accept and use in the name of the District such advances, grants-in-aid, or other funds for educational purposes as may now or hereafter be forthcoming from the United States Government, the State of New Hampshire, or any department or agency thereof, or any federal, state, or private agency (pursuant to R.S.A. 198:20-b).

ARTICLE 3. To see if the District will vote to authorize the school board to apply for, accept and expend, without further action by the School District Meeting, money from state, federal, or other governmental unit or a private source which becomes available during the 1989--1990 school year, provided that such expenditure be made for purposes for which a school district may appropriate money, and that such expenditure not require the expenditure of other school district funds. Further, that the school board shall hold a public hearing prior to accepting and spending such money (pursuant to R.S.A. 198:20-b).

ARTICLE 4. To see if the District will vote to make the position of School District Auditor an appointive position by the school board, rather than elective, effective July 1, 1990, or to take any other action in relation thereto. It is expected that the anticipated auditing costs of $1,600 will be budgeted for the 1990-1991 school year.

ARTICLE 5. To see if the District will vote to authorize the establishment of a public school kindergarten program, as determined by the school board, effective September, 1989, and to raise and appropriate an amount of money not to exceed $36,795.00 for the purpose of implementing said kindergarten program, or to take any other action in relation thereto.

ARTICLE 6. To see if the District will vote to appropriate the excess 1987-1988 Sweepstakes revenues, in the amount of $16,038, for the purpose of replacement and/or repair of a heating system in the Chesterfield Elementary School, or to take any other action in relation thereto.

ARTICLE 7. To see what sum of money the District will vote to raise and appropriate for the support of schools, for the salaries of school district officers and agents, and for the payment of statutory obligations of the district.

ARTICLE 8. To transact any other business which may legally come before this meeting.

CHESTERFIELD SCHOOL DISTRICT MEETING
March 5, 1988

School District Moderator Terry Wiggin opened the polls at 10:00 a.m. for voting. The following persons were appointed as ballot clerks and took the oath of office from Diana Allen, School District Clerk: Elizabeth Yacubian, Marcia Esche, Thomas Davoli, June Davoli, Donna Natowich, Thomas Allen, Caroline Wiggin, and Sandra Wiggin.

At 6:01 p.m., the moderator called the meeting to order for the purpose of acting on the articles in the warrant. The moderator introduced officials of S.A.U. 29, the Chesterfield School Board, and Lawrence Seavey, Principal of Chesterfield School. The moderator then reviewed the rules which will be followed during the meeting. These include the use of Robert's Rules of Order and Mason's Manual of Legislative Procedure as the basis of the rules. The moderator requested that speakers be recognized by the moderator, come forward to the microphone, and make comments addressing the moderator. He stated that first-time speakers on an issue will be recognized ahead of those wishing to speak a second time. The moderator will recognize the maker of a motion/amendment to speak first. Any motion to reconsider or rescind a motion will be recognized if it is made immediately after a decision on a motion and will be permitted anytime if notice of intent to reconsider/rescind is made immediately following a decision on a relevant motion.

The moderator recognized Jeff Newcomer who made a motion to dispense with the reading of the warrant and to read each article as it is taken up. Seconded by James Milani. The moderator declared the voice vote to be carried in the affirmative.

Articles in the warrant were disposed of as follows:

ARTICLE 1. Nancy Belsky moved that the reports of agents, auditors, committees, and officers of the school district be received and accepted as presented in the Annual School District Report. Seconded by James O'Neil, Jr. Moderator declared a voice vote carried in the affirmative.

ARTICLE 2. Robert Yacubian moved and Caroline Wiggin seconded the motion that Article 2 be adopted by the district as printed in the warrant. The voice vote was declared by the moderator to be in the affirmative.

ARTICLE 3. Thomas Davoli moved that the district raise and appropriate the sum of $20,000 for the purpose of replacing and repairing the roof on the Chesterfield School facility. Seconded by Susan Newcomer.

Phillip Natowich moved to amend Article 3 to see if the district will raise and appropriate the sum of $25,600 for the purpose of replacing and repairing the roof on the Chesterfield School facility. Seconded by Richard Wolf. The moderator declared the voice vote carried in the affirmative and Article 3, as amended, was approved.

ARTICLE 4. James O'Neil, Jr., moved that the district raise and appropriate the sum of $2,058,546.00 for the purpose of paying for the support of the schools, for the payment of salaries of school district officers and agents, and for the payment of the statutory obligations of the district. Seconded by Susan Newcomer. The moderator declared the voice vote to be in the affirmative.

ARTICLE 5. Warran Allen moved that the moderator appoint a committee of five to study any alternative the district may have to S.A.U. 29 with one member of this committee to be a school board member. Seconded by Michael Wiggin. At this time, the moderator appointed Thomas Allen as assistant moderator to that he (the moderator) could speak to this motion. The voice vote was declared to be in the affirmative by the assistant moderator.

Judith Palmer offered the following: Please join me in offering sincere thanks to School Board Chairman Wanda McNamara who finishes her three-year term tonight. Her business sense and managerial skills, as well as her cheerfulness, energy, and friendliness will be greatly missed.

A lengthy standing ovation followed Mrs. Palmer's statement.

The architect answered questions pertaining to the building addition.

James O'Neil, Jr., thanked Moderator Terry Wiggin for the outstanding job he did at this meeting.

Warren Allen moved and Donna Natowich seconded a motion to adjourn the meeting at 7:41 p.m. The moderator declared the voice vote to be in the affirmative.

The official town checklist was used for the elections. One hundred forty-six ballots were cast with no absentee votes.

Administrative Report

My first year as assistant superintendent of schools for towns has been very active and filled with many positive signs for the future. Probably the single most gratifying event has been the completion of the new addition and to witness the faces of the students as they entered the school, many for the first time since June.

Along with the new addition has come numerous challenges and the necessity to develop a structure within which the school and community can successfully interact. The community's effort in realizing the new addition has carried over to the playground project and many other activities. It is obvious that a quality educational program is uppermost in the minds of Chesterfield citizens.

The proposed budget for the 1989-90 school year reflects an effort by the Chesterfield School Board to provide for the continuing growth in student population and to meet the needs of all children in an appropriate manner. The Board is also continuing with its plan to meet the state minimum standards.

A question for Chesterfield's voters, which will be addressed at the district meeting, centers on the establishment of a public kindergarten. A kindergarten program would certainly enhance the overall quality of the school program and be of great benefit to the eligible children. The Kindergarten Committee has worked diligently to present the needs for this program and has surely demonstrated a true concern for the young children of Chesterfield. I urge your support of the kindergarten program question and endorse it as another positive step for the school district.

Please be involved in the district meeting on March 11, 1989. The future of the school district is bright and deserves your involvement and your support.

CHESTERFIELD SCHOOL

PRINCIPAL'S REPORT

This year we proudly opened our new addition and newly-renovated building. For the first time, we have all of the necessary classrooms and areas for learning that will allow us to provide expected instruction. Programs in music, art, physical education, and library sciences can be fully implemented without students leaving the school. For the first time, we have a building that is completely safe and a building that provides access for the handicapped.

For the first time, we have adequate parking, decent storage space and spaces for conferences and meetings. As a result of the building project, we now have a school with adequate water, septic, electrical, heating, roofing, and ventilation systems. Needed replacement, repair and/or addition to these systems resolved numerous problems that have plagued the school district for years.

On behalf of the students, parents and staff members at the school, we appreciate the support we have been given and intend to make the best possible use of the new facilities to provide for our students and the good of the Town of Chesterfield. Good town use of the building is already being made by the Town Recreation Department, the fire departments in each of the villages, the town police, and the local emergency preparedness squad.

One of the outstanding things about the Town of Chesterfield is the extent to which many people in town will give of themselves to provide for their school and the children in this community. This year a school playground, valued at over thirty thousand dollars, was completed using community resources at no additional cost to the taxpayers of the school district. Over two hundred volunteers under the able direction of a playground committee made up of Phil Shaw, Bruce Douglas, Tom Davoli, Toni O'Neil, Caroline Wiggin, and Dick Wolf completed the project after months of planning, organizing and fundraising. It was a marvelous example of the best that makes a small town work. Donations, volunteers and good planning by committee leaders made this project a delightful success for children and a source of pride for Chesterfield.

Again this year, the Chesterfield Lions Club donated additional improvements for the school ballfield. A new storage unit and concession stand has been added and fences have been repaired by members of the club. We are looking forward to working with people in the community this spring to reduce past problems at the ballfield with poor drainage, weak sod and no irrigation.

Enrollment projections provided for the school district meeting in March, 1985, have proven to be accurate. Projections suggested 253 students for September, 1988, and we opened with 257.

This year, voters at the school district meeting on March 11, 1989, will be asked to approve a public kindergarten to be housed within the Chesterfield School. We know that kindergarten can make a significant difference to our students and strongly urge your support. The cost of putting this program into the school has been reduced by our primary teachers who have worked to accept additional teaching responsibilities and an organization for next fall that will absorb the cost of a new kindergarten teacher. This was done because teachers realize the educational value of such a program to our students.

Our students continue to progress well as seen by standardized achievement tests. Results from the 1988 California Achievement Test indicates the obtained score for the total battery for each grade (3-8) tested is average or better. Strengths in most grades show in the areas of vocabulary and reading with weaknesses showing at two grade levels in math computation and total math scores. Individual results are sent home with each child with school and grade level results used to improve instruction as part of our school improvement project.

Last year, advisory committees helped the school in the areas of curriculum, kindergarten, readiness, and the use of facilities. During this year, the school has implemented most of the suggestions of those committees. This spring, we are looking forward to the start of a permanent advisory committee comprised of representatives from the teaching staff, parents and community members. This group will work closely with the principal on school improvement projects, the implementation of state standards, and the writing and use of federal grants.

With the addition of necessary space and the implementation of programs in art and library science this year, we are looking forward to completion of required state minimum standards by the start of the school year next fall. This will mean that the Chesterfield School has moved rapidly from the lowest category rating in 1985 to the top rating available during the 1989 school year. Much credit must be given to the past and present members of the school board who worked hard to improve the status of the school in these ratings.

It continues to be a pleasure for me to work with the staff, parents and officials of the school district to provide the best possible education for each of our students. Don't hesitate to call on me if I can be of service.

ANNUAL REPORT

The Chesterfield School Lunch Program for 1987-88 ran another successful program for the year, feeding on the average of 155 students per day.

Monthly menus are sent to WKBK and WKNE for morning announcement. Each student receives a menu so they may make their choices for the week. Free and reduced lunches are also offered. The prices for lunch and milk remained unchanged.

Government commodities came in every month and were a real bonus financially to the program. We introduced a few new menu items and will keep the successful ones.

Your support of paying lunch money on Fridays and "on time" is a great service to us. We are self supporting and cannot afford to run a credit system.

We look forward to serving your children from a new kitchen in a new school next year.

SMOKING IN SCHOOL FACILITIES
POLICY AND PROCEDURE FOR SCHOOL DISTRICT EMPLOYEES

This policy has been developed in accordance with the requirements of RSA 155:45 "Smoking Rules for Enclosed Public Places" issued by the New Hampshire Department of Human Services. This statute requires that "Notwithstanding any law or rule to the contrary, no person shall smoke in an enclosed public place except in designated smoking areas."

Effective July 1, 1987, all school facilities in the Chesterfield School District shall effectively segregate smoking by designating areas where smoking is permitted and where smoking is prohibited so that smoke from the smoking area does not cause harm, discomfort or annoyance to persons in the no-smoking area. No area in which students, parents, visitors or other school constituents are to meet with school employees may be designated as a smoking area.

There is considerable and increasing information available concerning the harmful effects of smoking. The Board, like any other employer, should be part of the process of making staff aware of this information. The Board will also arrange for one or more smoking cessation clinics which the Board, at its sole discretion, deems appropriate.

All staff are advised that violation of the statute can result in criminal penalties.

The administration will report to the school board annually regarding the need for modification of this Smoking in School Facilities policy and accompanying procedures.

Approved: C-12/10/87

ADMINISTRATIVE PROCEDURE
TO ACCOMPANY POLICY #5054, SMOKING IN SCHOOL FACILITIES

The School Board requires full compliance with RSA 155:45 "Smoking Rules for Enclosed Public Places" issued by the N.H. Department of Health and Human Services, and assigns implementation of said rules to the Superintendent of Schools. Within the Chesterfield School District, the Superintendent delegates to the building principal the responsibility for compliance with RSA 155:45 and the accompanying policy and procedure herein:

He-C 3001.22(d)(1) requires all "buildings and facilities housing grammar, middle, and high schools (grades K-12)" to be effectively segregated. The intent of this policy and procedure is to cover all facilities owned by the Chesterfield School District for the full calendar year. In order for a smoking area to be effectively segregated from any no-smoking areas, the following conditions must be met under He-C 3001.22(d)(1):

"Effectively segregate. The building, facility, area, group of rooms, or room for which the person in charge is responsible shall be considered 'effectively segregated' if the following conditions are met:

1) Procedures for accurately and fairly determining preference have been followed and adhered to; and if only one non-smoker user of a given facility requests or shows preference for a smoke-free environment, he or she has been accommodated.

2) The no-smoking and smoking permitted areas are designed, designated, or juxtapositioned in the best possible manner so as to prevent smoke from the smoking area(s) from causing harm, discomfort, or annoyance to persons in the no-smoking area(s); and the size and location of any smoking-permitted area shall be determined such that toxic effects are minimized.

3) A contiguous portion of the enclosed public place, including any seating arrangements, shall measure a minimum of 200 square feet, and at least one of the following 2 contingencies shall exist:

(a) There is a continuous, physical barrier such as a wall, partition or furnishing at least 56 inches in height to separate the no-smoking from a smoking-permitted area. The barrier may contain doors or portals for exit and entry; or

(b) There is a space of at least 4 feet in width to separate the smoking-permitted and no-smoking areas. This space may be either an unoccupied area or a section of seating area replacing a buffer zone in which smoking is not permitted, but which itself is not part of the no-smoking designated area.

4) In buildings where ventilation systems are in place, areas designated as smoking areas shall be located, where possible, proximate to exhaust vents.

5) The concentration of carbon monoxide in the no-smoking area shall be at a level no higher than the state and federal primary ambient air quality standards for carbon monoxide.

6) The concentration of carbon dioxide in the no-smoking area shall not exceed the suggested level as mandated by the state.
